EDUCATION

Georgia Institute of Technology, Computer Science B.S.

Expected: May 2026

- 4.0 GPA
- Concentration: Information Internetworks
- Relevant Courses: Data Structures and Algorithms, Discrete Mathematics, Objects and Design, Computer Systems and Organization

University of San Francisco, Computer Science B.S.

August 2022 - May 2023

- 3.91 GPA
- Relevant coursework: Introduction to Python, Introduction to Java, Multivariable Calculus

PROJECTS

Local Covid Tracker

Jan 2023

- Developed a Python program that calculates and visualizes the number of COVID-19 cases for a specified US county.
- Gained proficiency in parsing and manipulating extensive CSV files containing thousands of data entries.
- Utilized the Matplotlib library to interpret and analyze large datasets effectively, enabling the visualization of large data sets.

Spotify Wrapped Clone

Jan - Feb 2024

- Developed an Android application in Java, leveraging the Spotify API to generate comprehensive user summaries, from short-term to long-term insights, similar to Spotify Wrapped.
- Developed proficiency in querying and parsing JSON objects, alongside skills in storing and retrieving data with a NoSQL database.
- Designed and implemented an interactive front-end user interface, integrating view-models to link and manage user accounts with their Spotify profiles.
- Completed the project through a collaborative effort with team members in two four-week sprints, utilizing Scrum methodology for efficient project management and execution.

Schedule App

Mar - Apr 2024

- Developed an Android application in Java, focused on creating and managing to-do list items.
- Gained expertise in implementing activities, fragments, and view-models within applications.
- Acquired skills in designing both basic and interactive XML layouts for user interfaces.

SKILLS

- Code: Java, Python, html/CSS
- Tools: Git, NoSQL, Android Studio, VSCode, Firebase
- Programming: Data Structures and Algorithms, Object-Oriented Programming

ACTIVITIES

Rotaract Club

2022

- Participated in a community-focused organization dedicated to organizing volunteer opportunities aimed at enhancing the local area's welfare.
- Acquired valuable experience in public service and community contribution through volunteer activities
